

# The relationship between Post Shipment Controls and other practical initiatives seeking to promote responsibility in international trade in conventional arms

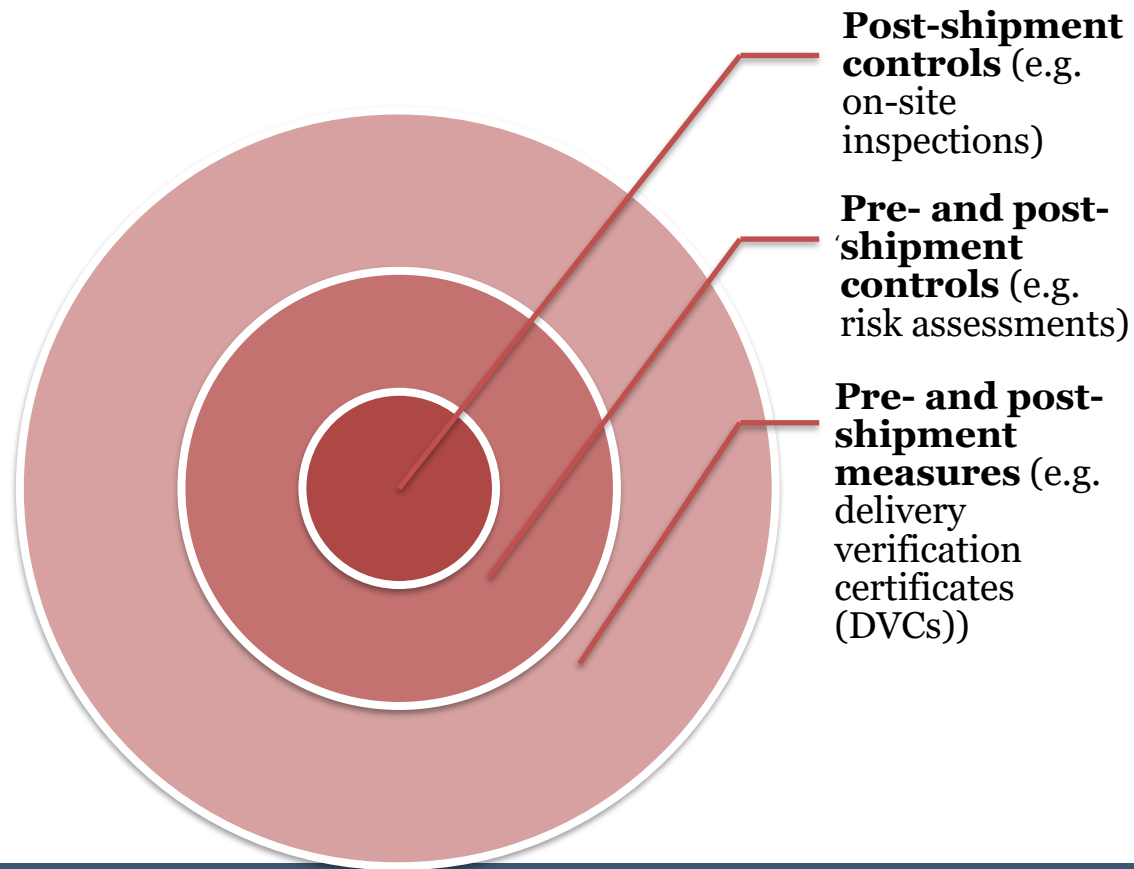

Mark Bromley, [bromley@sipri.org](mailto:bromley@sipri.org)

Dual-Use and Arms Trade Controls Programme, SIPRI

*22 August 2022*

## (i) Establish a common language and shared objectives 'on-site inspections'

## (ii) Exchanges of information between importing and exporting states

Organization of  
American States

# (iii) Reflect lessons-learned in new or updated good practice guides

Practices that states can apply when:

- (i) Adopting on-site inspections,
- (ii) Requiring on-site inspections,
- (iii) Conducting on-site inspections, and
- (iv) Taking follow-on steps after on-site inspections.

(iv) Create shared resources for states to use when planning and conducting on-site inspections

# (v) Create links between on-site inspections and physical security and stockpile management (PSSM)

- (i) Applying lessons learned from PSSM assistance when designing on-site inspections,
- (ii) Drawing upon knowledge and resources from PSSM when conducting on-site inspections, and
- (iii) Using PSSM assistance as a venue to discuss the use and purpose of on-site inspections.
