

THE ARMS TRADE TREATY

REPORTING TEMPLATE

INITIAL REPORT ON MEASURES UNDERTAKEN TO IMPLEMENT THE ARMS TRADE TREATY, IN ACCORDANCE WITH ARTICLE 13(1)

This template is intended for use by States Parties to the Arms Trade Treaty when preparing their initial report in accordance with the Treaty's Article 13(1).

Article 13(1) requires States Parties to “*report to the Secretariat on any new measures undertaken to implement the Treaty, where appropriate*” and thus does not limit information-giving only to measures related to binding obligations in the Treaty. However, in terms of national implementation, binding obligations have a special significance. To highlight this, the template distinguishes between two types of information: (A) information which relates to binding obligations under the Treaty, and (B) information which relates to provisions in the Treaty which are estimated to be binding to a lesser degree, or non-binding. Where the template touches upon information related to the (B) type of provisions in the Treaty, the rows are shaded to make this distinction clear.

The shading does not indicate that certain information is purely voluntary, its purpose is to facilitate the use of this template as a diagnostic tool for assessing at the national level the need for implementation work to fulfil requirements of the Treaty. The un-shaded items are necessary to implement, the shaded items represent desirable features of a national control system - which under certain circumstances may also be necessary to implement.

The division of obligations into binding and non-binding has been undertaken - solely for the purpose of this Template - on the basis of a strict observance of the qualifiers included in the text of the Treaty. Thus,

- if a provision in the text is prefaced with “shall” only, it is considered binding and information on that topic should be provided in the initial report.
- if a provision in the text has qualifiers, such as “shall...subject to its national laws”, or “shall...pursuant to national law”, or “shall....consistent with national law”, or “shall....where necessary/appropriate”, then a binding obligation is deemed to exist if certain pre-requisites are fulfilled. In this case, information on the topic should be provided in the initial report. If the pre-requisites are not fulfilled, the provision is deemed to be non-binding. In this case information need not be provided unless measures have in fact been taken in the national context to comply with such a provision.
- if States Parties are only encouraged to take, or invited to consider taking, certain actions, the provision is deemed non-binding. This category also includes qualifiers such as “may include...” or actions to be initiated “by mutual consent” with another State Party. Information should be provided if measures have been taken in the national context that fulfil this type of provision.

On a voluntary basis, more information may always be provided.

Please note that Article 13.1 also requires States Parties to “*report to the Secretariat on any new measures undertaken in order to implement this Treaty, when appropriate*”. This template may be used to supply such updates as well. Only changes need then be indicated.
