 Cancun, Mexico, 24-27 August, 2015

## THE ARMS TRADE TREATY

### PROVISIONAL TEMPLATE

#### **INITIAL REPORT ON MEASURES UNDERTAKEN TO IMPLEMENT THE ARMS TRADE TREATY, IN ACCORDANCE WITH ARTICLE 13(1)**

This provisional template is intended for use by States Parties to the Arms Trade Treaty when preparing their initial report in accordance with the Treaty's Article 13(1).

The template is divided into two sections. Section A encompasses information which relates to binding obligations under the Treaty. Section B (shaded) contains information which relates to provisions in the Treaty which are estimated to be binding to a lesser degree, or non-binding.

The division of provisions into binding and non-binding has been undertaken - solely for the purpose of this Template - on the basis of a strict observance of the qualifiers included in the text of the Treaty. Thus,

- if a provision in the text is prefaced with "shall" only, it is considered binding and information on that topic should be provided in the initial report.
- if a provision in the text has qualifiers, such as "shall...subject to its national laws", or "shall...pursuant to national law", or "shall....consistent with national law", or "shall....where necessary/appropriate", then a binding obligation is deemed to exist unless certain conditions are fulfilled - and information should be provided at least to indicate whether the obligation is considered applicable or not in the specific national context.
- if States Parties are only encouraged to take, or invited to consider taking, certain actions, the provision is deemed non-binding and information on the topic is voluntary. This category also includes qualifiers such as "may include..." or actions to be initiated "by mutual consent" with another State Party.

In Section B, States Parties are obliged according to Article 13(1) to provide information on the listed measures to the extent that such measures have been undertaken to implement the Treaty. On a voluntary basis, more information may also be provided.
