Comments of WGTR proposed amendments to the Initial Reporting template

Dear colleagues,

Concerning the Draft proposed adjustments to the initial reporting template by the WGTR Co-Chairs, the Chinese Mission would like to reaffirm our position, as elaborated during the Working Group meeting this year, **we do not support the two changes on Section 1.I** of the attached document.

Please take note of our objection of these changes, and we are ready to rise again during the consultation next week.

Best,

Chen WEI
